

Mobile Wiping & Diagnostics Software

Secure & Certified Software to Erase & Test iPhone, iPad & Android Devices

BitRaser serves your purpose for a mobile wiping solution that ensures complete erasure of data stored on iPhone®, iPad® & Android® based phones when they are disposed, recycled or resold. Additionally the software allows performing a series of 50+ assisted & automated tests to gauge the operational efficiency of mobile devices.

Tested , Approved & Certified

Software with Excellent Capabilities

- ✓

Secure Erasure
Securely erases data from iPhone, iPad, and Android devices beyond recovery using international erasure methods.
- ✓

Accurate Diagnostics
Performs 50+ diagnostic tests covering Battery, Camera, GPS, Bluetooth, S Pen Air Motion, Force Touch, Battery Drain, Wireless Charging, Alert Slider & more
- ✓

Global Data Wiping Methods
BitRaser Mobile Eraser supports 14 international erasure standards including NIST 800-88 Clear & Purge, IEEE 2883-2022 Clear & Purge, US DoD 3 passes, etc.
- ✓

ERP & API Integration
BitRaser Mobile is integrated with Makor ERP & RazorERP for seamless asset management. API is also available to integrate with other Asset management tools.
- ✓

Cloud Console
BitRaser secure cloud console provides flexibility to create users, manage license distribution & maintain a central repository of reports.
- ✓

Report For Audit Trails
Generates comprehensive reports that include details like erasure status, model, IMEI 1 & 2 number, capacity, diagnostic results, grading, etc.
- ✓

Automate Data Wiping
The software automates erasure and diagnostics through configurable settings. Get to check FMIP, FRP, MDM, ESN, & Carrier locked status.
- ✓

Multiple Deployment Options
BitRaser Mobile is available for Windows & Barebone hardware (Linux-based App). Erase smartphones in one go by deploying as per your requirements.

Benefits of Data Erasure

HELPS MEET COMPLIANCE

PREVENTS DATA BREACH

PROMOTES DEVICE REUSE

REDUCES CARBON EMISSIONS

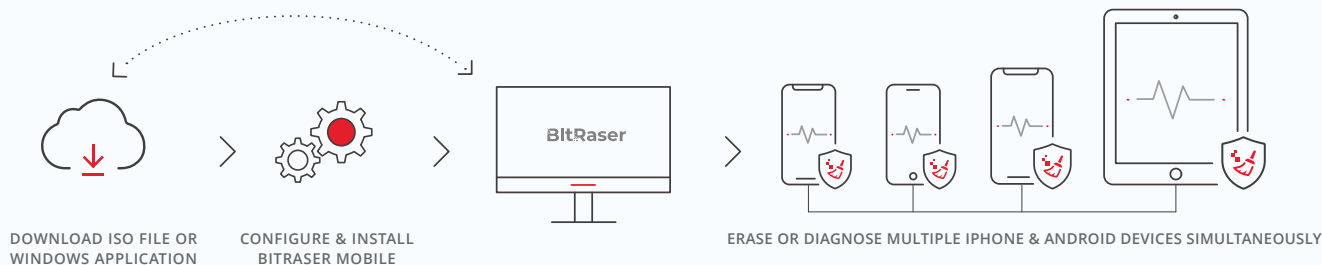

Other Specifications

-  **Certified Data Erasure & Diagnostics**
- Unified interface for mobile erasure & diagnostics
 - Simultaneously erase & test upto 40 devices
 - Erase working iPhone devices with broken screens*
 - Erase Apple locked devices
 - Supports e-Sim Erasure
 - Perform 50+ diagnostic tests to assess device health and grade it
 - Supports erasure of iOS devices running on iOS v7 & above
 - Supports erasure & diagnostics of Android devices running on OS v5 & above
 - Supports diagnostics for iOS device v12.5.7 & above
 - Supports Wireless Mobile Diagnostics
 - Generates erasure & diagnostics report in PDF, CSV & XML format
-  **Configuration & Automation**
- Easy Installation on Windows & bare-bone hardware
 - Supports checking jail-break on iPhones & FMIP status
 - Supports fetching IMEI 1 & IMEI 2
 - Supports MDM detection with supervision
 - Allows customization to pre-configure erasure & diagnostic process
 - Seamlessly pull erasure & diagnostics reports into ERP
 - Ability to print labels for erased or diagnosed devices
 - Option to customize USB port name for easy identification
 - Supports erasure & diagnostics on iOS device without iTunes

* Linux edition only

BitRaser Deployment

Deployment options available for Windows & barebone devices.

HAPPY CUSTOMER

Our selection of BitRaser over competition was based on the promising features the software offers. Our choice to select BitRaser for performing data erasure has been a fruitful one as BitRaser software exactly delivered to it promises.

Patrick Boyle

14 GLOBAL STANDARDS

- NIST 800-88 Clear
- NIST 800-88 Purge
- IEEE 2883-2022 Clear
- IEEE 2883-2022 Purge
- US DOD 5220.22-M (3 Passes)
- US DOD 5200.22-M (ECE) (7 Passes)
- Pseudo Random
- B Schneier’s Algorithm (7 Passes)
- Peter Gutmann (35 Passes)
- US Army AR380-19 (3 Passes)
- US Air Force AFSSI-5020 (3 Passes)
- British HMG IS5 (3 Passes)
- Zeroes
- Native OS Erasure
